GENERAL GRANT IN ITALY.

[BY CABBE TO THE HEBALD.] LONDON, April 21, 1878.

The nomination of Sadyk Pacha as Grand Vizier caused the utmost consternation at the British Foreign Office. He, like Osman and Reouf Pachas, favors a Russo-Turkish alliance. This surprise convinces Downing street, however, that Andrassy, under pressure exercised by Prince Bismarck, has finally accepted Ignatief's propositions, and now probably feels annoyed at England's imperious rejection of his pet free zone scheme.

A FATAL POLICY.

The Marquis of Salisbury, Minister of Foreign Affairs, has hitherto temporizedfearing to forfeit the chances of securing an Ottoman alliance-but, while he has hesitated and waited, Russia's diplomatists have had time to compromise and meet Austrian demands and susceptibilities. Turkey has had leisure enough during the interval, likewise, to reason herself into the belief that no more reliance is to be placed In British protection than England's former selfish conduct warranted.

THE TRIPLE ALLIANCE BESTORED.

Stated briefly, the change in the situation may be summed up in these words:-- A new lease of life for the Dreikaiserbund-the Alliance of the Three Emperors-and the definitive isolation of England.

A DELUSION.

If the British Ministry believes that by the despatch of a few Indian regiments to Malta it compensates for a long series of false moves already made it may find ere long how greatly mistaken it is.

A NEW DANGER

unaware of the hitch in the negotiations for a congress, but considers the change of Ministry in Turkey a new element of danger, as Ahmed Vefyk Effendi's presence in the Cabinet was a guarantee that nothing would be attempted against England. HOW IT LOOKS

"His sudden removal," says the correspondent, "looks as though the Russians had endeavored to steal a march on England while negotiations for a settlement were pending."

AT STAMBOUT.

The situation in and around Constantinopie attracts much attention: The Times' Vienna despatch says:-"The ministerial crisis is viewed with misgivings as capable of introducing a dis turbing element into the negotiations. Whatever may be the course of the crisis and whatever may have so suddenly determined its final issue, the removal of Ahmed Vefyk Effendi is sufficient to indicate the character of the chapge.

"It would nevertheless, perhaps, be premature to say that Russian influence has now become paramount in the Cabinet. It rather looks as if the phiect of the change had been to check the two extreme tendencies and at the same time the inction thereby caused between them in the Capinet. THE ISSUE ONLY POSTPONED.

"It the decision of the struggle between England and Russia for influence in Constantinople has thus, apparently, been postponed, the relative position of the two can scarcely be said to remain nnaitered, since with Ahmed Vefyk Effendi as Premier England had the key of influence in the Cabinet, and was thus, as it were, in possession.

ENGLAND MAY BE LEFT OUT. Now, however, this security is in a great meas are gone, while there is some danger that if, in their endeavor to prevent a collision the new Ministers should make some concessions to Russia, the British Embassy may be the last to know there of. A far wider field is thus opened to suspicion and misunderstandings, and consequently to acci-

The Pera correspondent of the Times, writing or the military situation at the Turkish capital, says:-"Although many things warrant the supposition that the Turks would fight to keep the Russians out of Constantinople, they have not distinctly made pp their minds to do so.

THEORY AND RESULTS.

"But admitting a theoretical intention on the part of the Turks to resist a Russian occupation it does not appear that the 90,000 Ottoman soldiers around the capital are an insuperable barrier to a surprise. The Russians know very well that if they wait to make a coup de main until war is deciared the chances against them will be much heavier than if

WHEN THE MOMENT MAY COME. "They have everything at their command-force money, diplomacy and intrigue. It does not require a very lively imagination to conceive how when Russia has made up her mind that it is nec essary to come into Constantinople she will secure

IMPATIENT OF DELAY. "The restlessness in the Russian cump is increase

ing every day. The temper of the whole camp is one of a most irrepressible fretfulness. Anything is better than to sit still rotting in fith, dreaming vainly of home and watching Death sowing and reaping; and, according to reports, which I be-lieve to be true, the peaceful spirit has fied from the camp and the idea of war is again welcome. A TERRIBLE TEMPTATION.

"With this spirit abroad, and, as far as I can learn, it is not confined to the less reflective or irresponsible ranks of the army, it must not be overlooked that the temptations to a coup de main are very great."

DARK PROSPECTS.

The week closed with the prospects of the Eastern difficulty no brighter. The belief that Prince Bismarck had contrived a form of invitation removing all objections and soothing all susceptibilities seemed to be corroborated by news fro Vienna that the paritamentary business of the Austro-Hungarian government was being pushed forward in order to set Count Andrassy at liberty to attend the Congress ,and in the suggestion that the Powers should meet to consider how, in consequence of the facts which occasioned the treats of San Stefano, the treaties of 1856 and 1871 should be modified, had, it was hoped, beenifound a recognition at once of the subsisting authority of the treaties for which England contended and the daim of Russia that her achievements in the late war should be respected.

EVERYTHING DEPENDS, YOU KNOW. But, as the Times states, however hopeful such suggestions may appear, everything depends on the specific form in which they are presented, and it seems that this has not borne the test of strict consideration. It is possible that, as the Times' Berlin correspondent states, Russi still attaches some reserve to her consent to dis cuss all the clauses of the Treaty of San Stefano, and that she cannot be brought to recognize de tinctly the claim of the great Powers to a voice in all new arrangements which affect the Eastern

ENGLAND TO BLAME. The Daily News' St. Petersburg correspondent throws the responsibility of the alleged failure of the German mediation on England, in having rejected the proposal of Germany, which Russia accepted, that a Congress should be summoned to insisted on her original conditions. However this may be, it is certain that new difficulties have arisen. Negotiations, it is said, continue, and may still lead to a satisfactory result, but the presen delay shows that the former divergence of view is

AN IMPORTANT POINT REACHED. The Agence Russe, of St. Petersburg, mention e news that Germany has proposed the withdrawal of the Russian troops and British fleet from Constantinople. Without confirming or contra dicting this news it says, if correct, it shows that an important phase of the negotiations has now been reached under Germany's powerful influence.

The Vienna Abendpost, the evening edition of the Official Journal, also mentions the above news and adds:-"Public opinion consequently consider the prospects for the Congress decidedly more fa vorable despite to-day's less favorable reports about other formal preliminary questions." A PRELIMINARY TALK.

Several newspapers in St. Petersburg yesterday stated that a preliminary conference should be accepted as a means of ascertaining the real intentions of England.

CATHOLICISM IN ENGLAND.

SECESSION OF THREE MILLION OF PROPER FROM THE CHURCH OF ENGLAND TO THE CHURCH OF ROME.

> [BY CABLE TO THE HERALD,] Paris, April 20,*1878.

From a person who professes to have an intimate acquaintance with the Vatican I hear that a movement is on foot which promises to be the most important event in the religious history of the century. This is nothing less than the secession in large bodies of members of the English Protestant Church to the Roman Catholic Church. The number of seceders is placed at as high a

figure as 3,000,000 of people. OFFICERS OF THE CHURCH, ALSO

Included in this exodus from the Church of England are bishops, rectors, curates and deacons. Authorized delegates are, it is asserted, now in Rome negotiating the

conditions upon which the secession will take place.

CONDITIONS ASKED Acceptance of the Catholic faith is promised on the following conditions: -First-The acceptance of all the doctrines of the Catholic Church.

FRESH ORDERS

Second-To solve the difficulties among Anglicans relative to ordination, bishops ministers and deacons consent to receive fresh orders in the Roman Church under certain conditions.

CELIBACY AND THE CLERGY. Third-All new priests undertake to observe celibacy.

MARRIED MINISTERS. Fourth-Ministers already married shall not be asked to quit their families, but shall be debarred from hearing confessions.

AN EPISCOPAL HIERARCHY. Fifth-The new Catholics to be placed for a period of twenty years under a special episcopal hierarchy in order to smooth the many differences of opinion that may arise during the transition.

THE EASTERN PLAN.

This plan is modelled on that adopted by the Church in the East. In Armenia, for instance, every city has its special hierarchy. ON HIGH AUTHORITY.

I give this, as the French sav, sous toute reserve, but it comes from such a high source that I would not be justified in treating it with incredulity.

HERALD WEATHER SERVICE.

STRONG TESTIMONY AS TO THE ACCURACY AND VALUE OF THE HUBALD STORM WARNINGS-THE WEATHER FORECASTS OF THE LONDON METEOROLOGICAL OFFICE NOT RELIABLE.

> [BY CABLE TO THE HEBALD.] LONDON, April 20, 1878.

The accuracy of the recent storm warn ings of the Henald is creating considerable discussion among scientific men here. Mr. W. H. Daniels, of the London Institution, writes the following letter to the Times on the subject :-

To the Editor of the Times:-

Sin-Permit me to protest most emphatically against the opinion expressed by Mr. Plant in the Times of the 17th inst. that we need not trouble ourselves about warnings from America, because the forecasts of the weather by the Meteorological Department of the Board of Trade are so reliable.

The only warning of the disastrous rain of last week we had from New York, and will be found in the Times of the 9th. It says:- "A storm of great energy will probably arrive on the British and Norwegian, affecting French coasts about the 13th, preceded by rains and strong southeast gales. Heavy weather in Atlantic north of latitude 40 degrees during week. Of this the forecast from the Meteorological Office of Wednesday, the 10th, at six P. M., and on the very night the rain began to fall, was unable to give any notice, and merely said, "Easterly to northeasterly winds in south; probably southwesterly in north; weather unsettled.' Why? Because in these latitudes except Ireland all land is to the east of us, so that weather advancing to us from the west comes over the Atlantic, and for information concerning this we are indebted to the warnings of the New York HERALD.

W. H. DANIELS.

A PLATFFERING COMPLIMENT.

The Echo speaks flatteringly of the Herald's special weather reports. It says:-"Every few days we get storm warnings from the proprietor of the New YORK HERALD, which are generally true and always welcome. Still it puzzles many why we, with a meteorological office in London, should be dependent on the proprietor of an American journal for weather warnings. The fact is, however, that for all information regarding weather advancing from the west we are indebted to the New York HEBALD."

PHILADELPHIA BANKS WILL GIVE AWAY THE PRACTIONAL PREMIUM. [BY TELEGRAPH TO THE HERALD.]

PHILADELPHIA, April 20, 1878. None of the banks here have yet resumed gold payments, nor is it likely that they will until the coin descends to par or ceases to fluctuate. The markets here to-day were somewhat unsettled and gold advanced to one-half, 'hursday's quotation was one-eighth. Yesterday having been a logal holiday the exchanges were closed.

THE CORDIAL SYMPATHY WITH THE RESUMP TION MOVEMENT. [BY TELEGRAPH TO THE HERALD.]

WILKESBARRE, Pa., April 20, 1878. If there is any sentiment agitating the financial circles in this wealthy city outside of the individthe universal expression of confidence the ability of the Secretary of the Treasury to meet the spirit and letter of the Resumption act. A HERALD reporter met Charles Parrish, the President of the Wilkosbarre Coat and Iron Company, and also President of the First National Bank, who remarked that the Bank was ready to second the efforts of the Secretary of the Treasury, and was ready to resume at the moment the government did. In fact the bank was paying out gold, upon request, at par, and would continue to accommodate its customers in small sums. Mt. Spauding, cashier of the Second National Bank, remarked that they had made no preparations for an excessive demand tor gold and did not anticipate any. They were paying out gold at par and would continue to do so on demand so long as the premium remained nominal as it is now. "We have," said he, "resources that will enable us to respond to the decision of the Secretary of the Treasury. The people do not want gold, but want to be assured that a \$10 greenback would purchase what an eagle wit." The net that gold is being paid on demand at the banks has not created a ripple in the general financial transactions. Irrespective of party featy the return to specie payments has the encouragement of the moreautile community.

THE GOVERNMENT SHOULD LEAD IN RE-SUMPTION.

[BY TELEGRAPH TO THE HERALD.]

SCHANTON, Pa., April 20, 1878. The prospects of a speedy resumption is viewed with great favor by the bankers of this city, but the prevailing sentiment is that the government should take the lead. N. H. Shafer, cashier he paid Conneil & Co. a considerable amount of gold this morning to be used in paying the monthly wager of their miners, who will welcome the shining metal with delight. He said the bank was paying out such with delight. He said the bank was paying out such gold as it received at par, as the premium was too light to warrant sending it to New York, and, "if the country could only drown out Congress resumption would be an accomplished tact before ten days." W. Winton, President of the Second National Bank, said:—"Let Uncle Sam hoist his flag and say, 'l'il take your greenbacks for all dees,' and the bankers will follow. It was all folly for bankers to lead off as long as gold was at a premium," and in this view ne was sustained by E. W. Clarke, an able Philadelphia floancier, with woom he had an interview the day previous. There was not much gold in the city and the expressage alone from New York would cost a dollar a thousand. Mr. Winton thought resumption would not be complete before the list of July in this section, unless the two great Delawares—meaning the coal companies—should commence paying their men in gold. Mr. Richaria, cashier of the Merchanis and Nicchanies' Bank, said they paid out some gold this morning at par and had some more on hand, but there was not much in the city. J. A. Linen, cashier of the First National Bank, said the scarcity of gold coin in this vicinity was the only drawback to immediate resumption. There was not demand for it, however, the people boung fully satis-

AN INSURRECTION RIPENING.

Reliable information has just reached here from the interior of the Mexican border States that an insurrection against the Diaz government is steadily but strely ripening. It is understood that the Lerdist party are arging the Mexican Indians to renew their raiding operations in order to bring matters on the Rio Grande to their former unstable state as regards the United States. The commanding officer of the sub-district of the Pecos telegraphs to the Department Headquarters that the Mexican indians are acting in concert with Indians from the Fort Stanton reservation, who are now on an extensive raid in Texas.

SEVERAL PERSONS KILLED.

Reports have reached here that the Indian raiders who crossed from Mexico a week ago have reached Fort Eweil. In the sheep settlements they are sweeping the flocks before them and several persons are already reported killed. Troops and citizens are in pursuit, but not likely to over-ake them, as the river is fordable at all points near Laredo. These raiders are not to be confounded with those raiding on the Northwestern frontler.
